

Eye and Face Protection

**DSI SAFETY INC. KNOWN AS DYNAMIC SAFETY INTERNATIONAL
IS A CANADIAN OWNED AND OPERATED COMPANY.**

Dynamic Safety International, well known for its Dynamic brand of products is a fast growing company due to its highly motivated, knowledgeable and experienced team of employees, combined with its offering of innovative and comfortable to wear safety products. With 7 lines of products of which 5 are completed up to 95% and 2 to be completed over the next year. Head Protection: The most complete and most diversified line of products worldwide. Eye & Face Protection: With a complete offering in spectacles of all kinds and unique specialties. Head Gear and Face Shields of all kinds, plus Welding Masks and others. Fall Protection: With one of the most elaborated and complete offering worldwide, we go from the most simple harness to the most complicated ones, we offer the largest selection of Lanyards and it goes on and on. First Aid Products: Again, the largest selection of product offering in Canada. Traffic Safety Products: Complete offering of Hi-Viz Traffic Safety Garments. Hearing Protection: On the way to be completed, from Disposable Plugs to a full line of Hearing Protectors (will be completed before the end of 2017). Respiratory Protection: From Disposable Masks to Half Masks, Full Face Masks and a complete line of Cartridges. Presently at NIOSH for approval, tooling in progress, will be introduced by the end of 2017 and beginning of 2018. Will be the only Canadian line of Respirators.

Dynamic products are proudly made to meet all safety regulations and/or standards required in North and South

America and in Europe. All of the Dynamic safety products are certified by a multitude of certification bodies when needed, such as CSA, ANSI, NIOSH and CE. We proudly apply their Logos when permitted. Thus proving you our dedication to protect you the best possible way and showing you our efforts to provide you with the highest quality products you can trust at all times.

Our team of Product Managers, the best in their field of experience, cumulate over 100 years of experience and expertise in their respective areas of knowledge. Whether it is for your needs in Head Protection, Eye & Face Protection, Hearing Protection, Respiratory Protection, Fall Protection, First Aid or Traffic Safety, we have skillful people that can help you in their field of experience. These people will be able to help you with training sessions, risk assessment surveys and can even help your safety committee to select the proper product for a specific situation.

Our Goals at Dynamic Safety International is to design, produce the best and safest safety products, and ensure that all your employees come home everyday safe and healthy.

4A and 3A Lens Coatings

There are many different lens coatings to choose from in the marketplace. We hope this section will give you a good overview of the coatings available and what they can offer you. Some are better for certain kinds of applications; we recommend you take into account your overall vision requirements when selecting a lens coating.

Most of Dynamic's protective eyewear is treated with either a 3A multicoating (Anti-Scratch, Anti-UV and Anti-Static), 4A multicoating (Anti-Scratch, Anti-UV, Anti-Static and Anti-Fog) or the new Dyna-Shield revolution (Anti-Fog re-invented). Such coatings will provide most workers with proper coating for their protective eyewear.

INTRODUCING Dyna Shield

THE NEW DYNA-SHIELD REVOLUTION (ANTI-FOG RE-INVENTED)

This new Anti-Fog coating make sure your lens stay clearer, last longer and are safer to use. With "DYNA-SHIELD" workers are going to be working safely for a much longer period of time. This coating is not new, it as been around for a while, it work better than the actual treatment but it is slightly more expensive, you want better protection here it is.

DYNAMIC 4A COATING

A permanently bonded coating that offers excellent anti-fog, antiscratch, anti-static and anti-UV properties.

4A REVÊTEMENT
COATING

Anti-Fog: Resists fogging and improves vision in humid environments

Anti-Scratch: Extends lens life in abrasive environments

Anti-UV: Absorbs more than 99.9% of harmful ultraviolet radiation

Anti-Static: Reduces dust and particulate attraction

DYNAMIC 3A COATING

A permanently bonded hardcoat that reduces surface lens scratching. The Dynamic 3A coating will extend the life of the lens.

3A REVÊTEMENT
COATING

Anti-Scratch: Extends lens life in abrasive environments

Anti-UV: Absorbs more than 99.9% of harmful ultraviolet radiation

Anti-Static: Reduces dust and particulate attraction

LENS SELECTION CHART

Light Transmission: Is the amount of light reaching the eye after passing through a filter.

Light Absorption: Is the amount of light which light is absorbed or eliminated by passing through a lens.

Filters: Are lenses that reduce or eliminate light intensity. The light spectrum covers ultraviolet, visible and infra-red radiation.

Visible Light: Is radiant energy that is visible to the human eye and having a wavelength between 380 nm to 760 nm.

Infrared Radiation: Is radiant energy or electromagnetic radiation of large wavelengths between 760 nm to 1000 nm.

Ultraviolet Radiation: Is radiant energy or electromagnetic radiation of short wavelengths between 100 nm to 380 nm.

Lens Colour	Description	Visible Light Transmission %	UV Light Transmission %
 CLEAR	For indoor or outdoor applications where light filtration is not required	90% ± 1%	0.005%
 AMBER	For low light applications where contrast enhancement is required. Also reduces low energy blue light	99% ± 0.05%	0.05%
 BLUE	For work areas with high levels of yellow light is present such as sodium vapor lighting	47% ± 1%	0.05%
 SMOKE	For outdoor applications where sunlight and glare cause eye strain and fatigue. Not for use when infrared protection is required	11% ± 1%	0.05%
 I/O MIRROR	For indoor/outdoor applications. Reduces glare from scattered light or low energy visible light	54% ± 1%	0.05%
 MIRROR	For outdoor applications. Reduces glare from scattered high energy visible light	12% ± 1%	0.05%
 POLARIZED SMOKE	For outdoor applications. Reduces extreme glare from excessive scattered high energy visible light	12% ± 1%	0.05%
 POLARIZED COPPER	When facing high energy sun-light producing high levels of glare from scattered sun-light while driving vehicles or mobile equipment. Also reduces blue light to increase contrast	13% ± 1%	0.05%
 POLARIZED BLUE-MIRROR	For outdoor applications. Reduces extreme glare from highly reflective surfaces such as lakes, rivers, snow	11% ± 1%	0.05%

“The Phantom OTG” EPMK01 Series

Z94.3-15 CERTIFIED BY CSA CANADA

MEETS AND/OR EXCEEDS ANSI Z87.1 REQUIREMENTS

4A REVÊTEMENT
COATING

This modern design offers the highest levels of comfort, performance, look and protection. This comfortable goggle comes complete with an Anti-Fog coated polycarbonate lens and a soft TPR shroud in a nylon outer rim frame with hidden indirect ventilation holes. This “OTG” style can be used over prescription glasses. The EPMK01 Phantom OTG Safety Goggle comes with a FR fabric strap and lenses of various shades. An optional shield may be attached to the EPMK01 goggle for splash protection.

FEATURES & BENEFITS

- Large comfortable soft frame
- Wide one piece lens
- Anti-Fog protection
- Indirect ventilation providing maximum protection against chemical splashes
- Lens available in Clear, Smoke, Amber and I/O Mirror
- Strap made of “FR” material
- The lenses are protected with 4A Coating: Anti-Fog, Anti-Scratch, Anti-UV 99.9%, Anti-Static
- CSA Z94.3-15 certified and meets and/or exceeds ANSI Z87.1 requirements

High Performance Headgears

TO USE WITHOUT PROTECTIVE CAP

FEATURES & BENEFITS

- Accepts a wide range of faceshield styles
- Large sparkguard provides excellent protection
- Cross strap adjusts to allow an exceptional fit
- Full floating mount sparkguard provides comfortable wear even with heavy faceshield and continuous use
- Comes with pinlock or ratchet adjustment for quick, easy and perfect fit
- Noryl is a very tough material which is resistant to sparks and heat
- The EPHG300 and EPHG300R are not compatible with the EP919 faceshield series

EPHC02

Cap-Lock Adapter Kit

TO USE WITH HEADGEAR, BRACKETS & WELDING HELMET

FEATURES & BENEFITS

- To attach welding helmets, headgears or brackets to a hard hat
- Fits easily on to most hard hats with slots
- Quick & Easy snap on and off feature
- Will accommodate narrow welding helmet if used with the extension

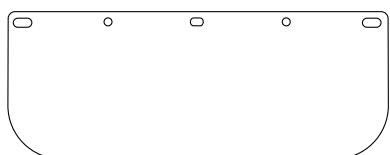

PART NO	DESCRIPTION
EPHC01	Cap lock adaptor kit with extension pieces
EPHC02	Cap lock blades only

High Performance Faceshield Visors Windows

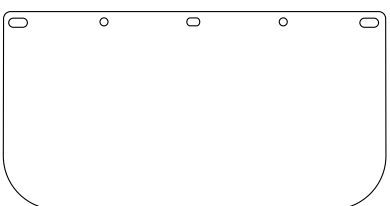

DIE CUT WINDOWS - FLAT

FEATURES & BENEFITS

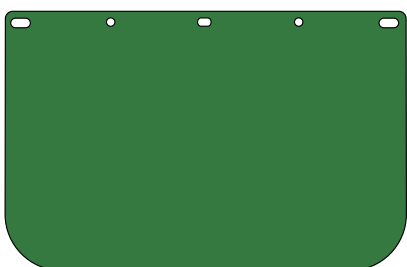

- All the visors, faceshields and windows offer the multi-fit attachment pattern (or universal fit). This pattern consists of 5 slots strategically located to fit a wide variety of headgear and brackets
- 2 types of materials are available: PETG and Polycarbonate
- 2 thicknesses of material are available .040 in / 1.0mm and .060 in / 1.5 mm
- Clear and green colors of materials are available on certain products

ARC FLASH WINDOWS

Protect yourself against hazards from glares of light produced by electric arcs by using Dynamic protection system. Electric arcs are produced by an electric shock that result in an electromagnetic explosion of energy from fragments of fused metal being able to cause serious wounds. "Arc Flash" faceshield from Dynamic are conceived in order to provide to the user best possible vision and protection at work.

FEATURES & BENEFITS

- 9.9 Cal/Cm² et 12 Cal/Cm²
- Special formulation
- Complete panoramic vision
- Molded faceshield that offers a clear vision without any distortion
- Perfect definition of colors

- Made of Polycarbonate highly resistant to the impacts and chemical splashes
- Curved faceshield to cover the entire face and chin ensuring you of a total protection
- Meets CSA Z94.3-15 standards and ANSI Z87.1 requirements
- Meets ASTM F-2178-6 and NFPA 70E standards

EP4101	Fixed	Polycarbonate Shade #10	2" x 4.25"
EP4101AD	Fixed	ADF, Shade #10	2" x 4.25"
EP4106	Lift	Polycarbonate Shade #10	2" x 4.25"
EP4109	Fixed	Polycarbonate Shade #10	4.5" x 5.25"

Dyna-Weld Class II Welding Helmet

WITH DYNAMIC “SURE-LOCK” RATCHET SUSPENSION TO USE WITHOUT PROTECTIVE CAP

EP509

FEATURES & BENEFITS

- The only class II welding helmet on the market
- Made of black thermoplastic
- 2" x 4.25" lift or fixed front OR
- 5.25" x 4.5" lift or fixed front
- Also available with ADF filter plate
- Ratchet headgear suspension
- Available in black color only

PART NO	FRONT	LENS SHADE	LENS SIZE
EP501	Fixed	Polycarbonate Shade #10	2" x 4.25"
EP501AD	Fixed	ADF Shade #10	2" x 4.25"
EP506	Lift	Polycarbonate Shade #10	2" x 4.25"
EP509	Fixed	Polycarbonate Shade #10	4.5" x 5.25"
EP509AD	Fixed	ADF Shade #10	4.5" x 5.25"
EP509AD13	Fixed	ADF Shade #9-13	4.5" x 5.25"

EP7101

Dyna-Weld Class II Welding Helmet

TO USE WITH PROTECTIVE CAP

FEATURES & BENEFITS

- The only class II welding helmet on the market
- Made of black thermoplastic
- 2" x 4.25" lift or fixed front OR
- 5.25" x 4.5" lift or fixed front
- Also available with ADF filter plate
- Include (1) EPHC01 "Cap Lock" kit complete with blades for slotted cap
- Available in black color only

PART NO	FRONT	LENS SHADE	LENS SIZE
EP7101	Fixed	Polycarbonate Shade #10	2" x 4.25"
EP7101AD	Fixed	ADF Shade #10	2" x 4.25"
EP7106	Lift	Polycarbonate Shade #10	2" x 4.25"
EP7109	Fixed	Polycarbonate Shade #10	4.5" x 5.25"
EP7109AD	Fixed	ADF Shade #10	4.5" x 5.25"
EP7109AD13	Fixed	ADF Shade #9-13	4.5" x 5.25"

Welding Filter Lens and Cover Plates

Full line of filters, lens, cover plates and magnifiers. Includes top quality glass or plastic plates and lenses for virtually every metal fabrication application.
