

# COMPLIANCE WITHOUT COMPROMISE

**TOTAL**  
RESCUE

**COMPLIANCE PEOPLE  
LOVE US.**

**BOSSSES BREATHE  
EASIER.**

**THE GUYS KNOW WE  
HAVE THEIR  
BACK.**

**COMPLIANCE PEOPLE AROUND  
THE WORLD AGREE, WHEN IT COMES  
TO FALL PROTECTION AND RESCUE,  
PROTECTA® IS A GLOBAL PARTNER.**

It seems like there are fewer things you can count on every year. That's what makes Protecta stand out in fall protection and rescue. Under some of the harshest conditions around the globe, for more than 79 years, Protecta has proven its reliability job after job.

Protecta gear provides a combination of practical affordability and simple compliance. Our extensive line of safety equipment ranges from basic harnesses and lanyards to complex, industry-specific anchorage connectors with no compromise on quality. Protecta has many of the same features as higher priced equipment, such as ergonomic design, impact indicators, serial numbers, steel hardware, accessories and options for specialized needs and budgets.

Protecta gear meets or exceeds the world's most stringent standards and codes—CSA, ANSI, OSHA and CE, as well as local and provincial legislation.

Protecta® is part of Capital Safety—the only company with global reach solely dedicated to fall protection and rescue—but we don't just manufacture equipment. Our leaders participate in compliance regulatory organizations. Our product specialists are on-site soliciting direct input from workers. Once you've chosen Protecta, we're there with training and long-term product support.

## PROTECTA®: A SURE THING IN

### LIFETIME WARRANTY

Protecta products are warranted for their entire lifetime to be free from defects in materials and workmanship, under normal use and conditions. Our warranty extends from the product's original date of purchase, in new or unused condition, from any authorized Protecta brand distributor and applies exclusively to the product's end user. For detailed warranty information, see [www.capitalsafety.com](http://www.capitalsafety.com).

## TRAINING AND CONSULTING

Fall Protection Group now leads all Capital Safety training initiatives within Canada. Training is offered through scheduled open enrollment courses at our training facility in Calgary, Alberta or Mississauga, Ontario, as well as various other locations in Canada. We are happy to share our passion for training, please contact us by email at [info@fallprogroup.com](mailto:info@fallprogroup.com).

# A WORLD OF UNCERTAINTY.

## THE ABC'S OF FALL PROTECTION

The ABC's are an easy way to remember the components of fall protection. "A" stands for Anchorage, "B" is Body support and "C" is the Connection between them. Don't forget "D"—Descent and rescue equipment that must be on-site at each job.

**Anchorage** are a secure point of attachment. Anchorage connectors vary by industry, job, type of installation and structure. They must be able to hold fast under more than a ton of force generated in a fall.

**Body Support** harnesses distribute fall forces over the upper thighs, pelvis, chest and shoulders. They provide a connection point on the worker for the personal fall arrest system.

**Connectors**, such as shock absorbing lanyards or self retracting lifelines, connect the worker's harness to the anchorage.

**Descent and Rescue** devices are used to retrieve an injured worker or lower him to the ground.

## HARNESSES

### MODELS WITH COMFORT PADDING

Shoulders, back and legs are cushioned for increased comfort and additional security in a fall.

### SPRING LOADED TORSO BUCKLES

Provide fast and easy adjustment on the job.

### LIGHTWEIGHT HARDWARE

Reduces weight and fatigue. Increases comfort and productivity.

### TONGUE BUCKLE LEGS

Simple, fast and easy adjustment. Ideal when more than one worker uses a harness.

Other leg strap buckles available:

Quick Connect Buckle

Pass-Thru Buckle

### DORSAL D-RING

High-quality alloy steel for strength and durability. Adjustable for worker convenience.

### LANYARD KEEPERS

Provides place to "park" lanyard when not in use to prevent accidental entanglements.

### BUILT-IN IMPACT INDICATOR

Allows for easy inspection, added safety.

### BODY BELT AND HIP PAD

Added lumbar support, positioning capabilities and tool carrying support/options.

### MULTIPLE CONNECTION POINTS

Add versatility, allowing harness to be used for many different jobsite applications.

### INCREASED CAPACITY

Complete protection for workers up to 420 lbs. (190 kg) – reference OSHA criteria. Capacity exceeds CSA test rating.

### IMPROVED FIT

Greater sizing flexibility, comfort and overall performance.

Model Shown 1191209C

# THEY COVER YOUR CREW AND YOUR REAR END AT THE SAME TIME.

Model Shown 1191260C

**PRO™ SERIES** The all new, fully functional Protecta® PRO™ line gives you the right harness, the right fit and the right value. With a design that incorporates an improved fit, updated colors and lightweight hardware and padding, they provide greater comfort and added safety, which means reduced worker fatigue and increased productivity. Plus, each harness now features built-in lanyard keepers and an increase in worker capacity — up to 420 lbs. (190 kg) exceeding CSA test rating. PRO™ harnesses meet CSA Z259, ANSI and OSHA standards.

## PRO™ HARNESS ACCESSORIES

### AK048A

#### EQUIPMENT BAG

Compact harness/lanyard bag,  
13" x 12" (33 cm x 30 cm).

### AK066A

#### EQUIPMENT BAG

Large bag for harness  
and lanyard or 50 ft. (15 m)  
lifeline, 9-1/2" x 10" x 15-1/2"  
(24 cm x 25 cm x 40 cm).

### PRO BODY BELT

Tongue buckle belt with hip pad  
and side D-rings.

1091013 Small

1091014 Medium/Large

1091015 X-Large

### 1385000C

#### PRO D-RING EXTENSION

Dorsal D-ring extender with  
D-ring at one end, snap hook at  
other x 18" (45 cm).

## PRO<sup>TM</sup> CONSTRUCTION HARNESSES

### PRO CONSTRUCTION STYLE POSITIONING HARNESS

## PRO HARNESS SIZING CHART

## LANYARDS

### HIGH STRENGTH AND CAPACITY

5,000 lb. (22 kN) breaking strength for durability and options for E4 and E6 capacities.

### TOUGH WEBBING

Polyester construction is strong enough to endure rough use and the elements.

### REDUCED IMPACT FORCES

Built-in energy absorber limits the average fall arresting forces to 900 lbs. (4kN) for added safety.

### 3,600 lb. GATED HOOKS

Every PRO™ lanyard features 3,600 lb. gated hooks, for added safety and security.

### IMPACT INDICATOR

Allows for easy inspection for added safety.

### DURABLE HARDWARE

Alloy steel construction with zinc plating for strength, durability and corrosion resistance.

### VARIOUS STYLES AND LENGTHS

A variety of styles and lengths are available to choose from—if you don't see it, please call.

Model Shown 1341101C

## HOOK OPTIONS

All Protecta® lanyards feature 3,600 lb. (16kN) gated hooks for added safety.

**STANDARD HOOK**  
**WITH 3/4" (19 mm)**  
**GATE OPENING**  
3,600 lb. (16kN)  
gate strength.

**FLAT STEEL REBAR**  
**HOOK WITH 2-1/4"**  
**(57 mm) GATE OPENING**  
3,600 lb. (16kN)  
gate strength.

**TIE-BACK CARABINER**  
**WITH A 3/4" (19 mm)**  
**GATE OPENING**  
5,000 lb. (22kN)  
gate strength.

# FOR YOU IT'S COMPLIANCE. TO A CREW IT'S CONFIDENCE.

Protecta® PRO™ lanyards provide high quality compliance at an economical price. And trust among workers. They feature durable lanyard material construction and plated alloy steel hardware for strength and corrosion resistance. All PRO™ shock absorbing lanyards limit forces to meet CSA, ANSI and OSHA requirements.

ENERGY ABSORBER CLASSIFICATION DETAILS

CSA Class	Maximum Arresting Force	Maximum Elongation	Minimum Mass of Worker	Maximum Mass of Worker
E4	4.0 kN (900 lbs.)	1.2 m (3.9 ft.)	45 kg (100 lbs.)	115 kg (254 lbs.)
E6	6.0 kN (1300 lbs.)	1.75 m (5.7 ft.)	90 kg (200 lbs.)	175 kg (386 lbs.)

## PRO E4/E6 COMBO

PRO E4/E6 Combo Lanyards are your solution for both E4 & E6 weight classes. It eliminates the need to carry two different lanyards, while giving you the confidence needed to complete the job. This lanyard leverages the features of the PRO Pack.

## PRO PACK

PRO Shock Absorbing lanyards feature durable 1" (25 mm) polyester webbing, 1/2" (13 mm) nylon rope or 1/4" (6 mm) vinyl covered cable with 3,600 lb. (16kN) gated hooks and an energy absorbing design that limits the average fall arresting forces to 900 lbs. (4kN) for added safety.

## PRO HOT WORKS

PRO Hot Works shock absorbing lanyards feature flame resistant Kevlar® fiber webbing and shock pack. Includes 3,600 lb. (16kN) gated hooks and an energy absorbing design that limits the average fall arresting forces to 900 lbs. (4kN) for added safety.

## PRO TIE-BACK

PRO Tie-back shock absorbing lanyards feature specialized webbing and hardware that withstands the rigors of tie-back use. Includes 3,600 lb. (16kN) gated hooks and an energy absorbing design that limits the average fall arresting forces to 900 lbs. (4kN) for added safety.

## PRO-STOP™

PRO-Stop lanyards feature polyester tubular web, as opposed to a traditional shock pack, 3,600 lb. (16kN) gated hooks and an energy absorbing design that limits the average fall arresting forces to 900 lbs. (4kN) for added safety.

## PRO ELASTIC

PRO Elastic shock absorbing lanyards combine the pack style energy absorber with stretch capabilities. It expands to 6 ft. (1.8 m) and contracts to 4-1/2 ft. (1.4 m) in reaction to the worker's movements. The 3,600 lb. (16kN) gated hooks and an energy absorber design limit the average fall arresting forces to 1800 lbs. (8kN) for added safety.

## PRO POSITIONING

All PRO Positioning lanyards feature 3,600 lb. (16kN) gated hooks and are used to maintain a working position. These devices do not incorporate shock absorbers and can only be used without a fall arrest system if the fall possibility is 2 ft. (0.6 m) or less.

## PRO™ E4/E6 COMBO LANYARDS

**1340133C**

### PRO E4/E6 COMBO LANYARD

Single-leg with snap hook and flat steel rebar hook x 6 ft. (1.8 m)

# HINT: NEVER CHOOSE AN INFERIOR LIFELINE FOR A BIG GUY WITH A HAMMER.

Model 1200101

Protecta® offers reliable vertical and horizontal lifeline systems that not only ensure a worker's safety, but complement his ability to work. PRO™, Cobra™ and Cabloc™ are established performers in many industries and meet applicable standards.

## HORIZONTAL LIFELINE SYSTEM

**1200101**

### **PRO-LINE™ SYNTHETIC HORIZONTAL LIFELINE SYSTEM**

The PRO-Line synthetic horizontal lifeline systems are lightweight, easy to install and extremely portable. Just disassemble and take to the next job.

- Complete kit includes two tie-off adaptors for simple anchorage to structure
- Built-in shock absorber reduces anchorage loadings to preserve the structure
- Fall arrest rated for two users provides jobsite flexibility
- 60 ft. (18 m) web lifeline is compact, portable and versatile

**1200105** PRO-Line Synthetic Horizontal Lifeline System x 60 ft. (18 m) with carrying bag (no tie-off adaptors)

## LADDER SAFETY SLEEVE

**AC351C**

### **CABLOC™ LADDER SAFETY SLEEVE**

The Cabloc device is for use on fixed ladder safety systems. It offers complete hands-free operation, and arrests a fall within 2 ft. (0.6 m). It travels on a 3/8" (9.5mm) 7x19 solid core cable affixed to a ladder or pole, utilizing an upper and lower bracket.

**AC350C** Cabloc Ladder Safety Sleeve for use on 5/16" (8 mm) 7x19 solid core cable

## ROPE GRABS – AUTO AND MANUAL

### AC202C

#### COBRA™ ROPE GRAB (Auto/Manual)

- Mobile design automatically follows user for hands-free operation
- Manual option allows user to fix unit in place for positioning or restraint
- Detachable design can be attached or removed anywhere along lifeline
- For use on 5/8" (16 mm) polyester/polypropylene rope lifeline
- CSA class ADP

### 5000003

#### ROPE GRAB (Auto)

- Mobile design automatically follows user for hands-free operation
- Detachable design can be attached or removed anywhere along lifeline
- For use on 5/8" (16 mm) polyester/polypropylene rope lifeline
- Lightweight and compact design

### 1340005

#### PRO ROPE ADJUSTER/LANYARD (Manual)

- Manual design allows user to fix unit in place for positioning or restraint
- Attached 2 ft. (0.6 m) shock absorbing lanyard
- For use on 5/8" (16 mm) polyester/polypropylene rope lifeline

## LIFELINES

### AC215A

#### LIFELINE - NYLON

50 ft. (15 m) nylon rope lifeline with attached snap hook.

## ANCHORAGE CONNECTORS

# ANCHORS MADE FOR CONCRETE, WOOD, STEEL AND PEACE-OF-MIND.

Anchorage connectors are dependent on specific job requirements—the type of attachment, environment and connecting system. That's why we offer the most complete line, all rigorously tested to meet applicable CSA, OSHA and ANSI standards and ensure strength. Our anchorages are a secure point of attachment capable of supporting a load of 5,000 lbs. (22kN) per worker. An anchorage connector attaches your personal fall arrest system to the main anchorage or support structure.

## GENERAL (ALL-PURPOSE) ANCHORS

Portable anchors used in a variety of applications. Many are "choker" style designed to provide a safe and easy way to anchor a fall protection device to an overhead location beyond normal reach.

---

## STEEL ANCHORS

Anchors for steel are often used during commercial construction and attached to steel columns and beams. Models can be permanently attached or temporarily clamped, offering a fixed or mobile anchorage connector.

---

## CONCRETE ANCHORS

Concrete anchors are secured to concrete decks and columns. They provide the worker with safety and mobility when performing concrete construction work.

---

## ROOF ANCHORS

Roof anchors are available in a variety of designs to meet the specific requirements of your roof type. They are designed to keep the worker safe, without causing damage to the structure.

## GENERAL (ALL-PURPOSE) ANCHORAGE CONNECTORS

Our tie-off adaptors are our most versatile anchorage connector combining ease of use, light weight and 5,000 lb. (22kN) high strength.

### AJ450C-6 WEB TIE-OFF ADAPTOR

Pass-thru design makes attaching to anchorage quick and easy. 1-3/4" polyester strength member with 3" wide polyester wear pad x 6 ft. (1.8 m).

**AJ450C-3** Web tie-off adaptor x 3 ft. (0.9 m)

**AJ47410C-6** Web tie-off adaptor x 6 ft. (1.8 m) with web loop and D-ring pass-thru

**AJ47410C-3** Web tie-off adaptor x 3 ft. (0.9 m) with web loop and D-ring pass-thru

### AJ408CG-6 CABLE TIE-OFF ADAPTOR

Lightweight and extremely durable 1/4" (6.4 mm) coated galvanized cable stands up to harsh environments. 6 ft. (1.8 m) length with snap hook at one end, O-ring at the other.

**AJ47406-6** Cable tie-off adaptor with two O-rings

### 2190102C CABLE TIE-OFF ADAPTOR

1/4" galvanized 7x19, with carabiner at one end and two D-rings at other x 6 ft.

**2190100C** Cable tie-off adaptor with carabiner at one end and two D-rings at the other x 3 ft.

**2190101C** Cable tie-off adaptor with carabiner at one end and two D-rings at the other x 4 ft.

Carabiners are an extremely versatile choice to keep your system securely connected. Workers appreciate the reduced weight and easy operation they offer. 5,000 lb. (22kN) minimum breaking strength for added safety.

### 2000112 CARABINER

Steel carabiner with 3,600 lb. (16kN) self closing/locking gate, 11/16" (17.5 mm) opening.

**2000117** Carabiner, roll pin, 11/16" (1.75 cm) opening

**2000114** Carabiner 2-3/16" (5.56 cm) opening

## STEEL ANCHORAGE CONNECTORS

Extremely versatile anchors for steel are lightweight and compact, providing an easy to install and safe 5,000 lb. (22 kN) tie-off point for your personal fall protection system.

### AJ704A BEAMDOG™ SLIDING BEAM ANCHOR

For use on top or below an I-beam with flanges 4" to 14-3/4" (10 cm - 37.4 cm) wide and up to 1-1/2" (3.8 cm) thick. Nylon rollers provide smooth, effortless operation along the beam.

### AJ703A RAILDOG™ SLIDING RAIL ANCHOR

Provides mobile anchor point on 2-3/4" to 3-1/4" (7 cm - 8.25 cm) wide rails. Incorporates stainless steel construction and special 5,000 lb. (22kN) gate rated carabiner.

### AN3732A-12 EYEBOLT ANCHOR - UNTHREADED

Unthreaded ring only (no bolt), forged steel construction with zinc plating, 1/2" (1.27 cm) hole.

**AN3732A-58** Eyebolt anchor with 5/8" (1.58 cm) hole

**AN3732A-34** Eyebolt anchor with 3/4" (1.9 cm) hole

### AN112C EYEBOLT ANCHOR - THREADED

Forged steel construction with zinc plating, 1/2" x 1-3/8" mounting bolt, 2-3/4" ID horizontal anchor area, 1-3/8" ID vertical anchor area.

### AJ301A HAND GRIP

2" (5 cm) capacity. One hand operation with plastic grips for comfort.

**AJ302A** Hand Grip with 3" (7.6 cm) capacity

**AJ303A** Hand Grip with 4" (10 cm) capacity

## CONCRETE ANCHORAGE CONNECTORS

Our concrete anchors are lightweight and compact, providing an easy to install and safe 5,000 lb. (22kN) tie-off point for your personal fall protection system.

### 2190053 REUSABLE CONCRETE WEDGE ANCHOR

Portable, durable and safe concrete anchor for vertical wall or overhead ceiling applications. Easy to use for added safety and flexibility.

### 2190055 CONCRETE D-RING ANCHOR

Simple, versatile and safe concrete anchor for temporary or permanent applications. Extremely rugged design for extended life and jobsite flexibility.

2190060 Concrete D-ring anchor with 6 bolts

### 2190057 CONCRETE ANCHOR STRAP

Pack of 25 disposable anchor straps with D-ring x 3-1/2 ft. (1 m) is designed to provide a temporary anchorage on concrete forms. Loop slips over rebar, then concrete is poured over. When no longer needed, simply cut strap and discard.

2190058 Concrete Anchor Strap with D-Ring x 4 ft. (1.2 m) - Pack of 25

2190063 Concrete Anchor Strap without D-Ring x 3-1/2 ft. (1 m) - Pack of 25

### AJ720A CONCRETE ANCHOR PLATE

Mounts horizontally or vertically to concrete or steel and includes forged D-ring for tie-off point.

### AN220A CONTINUOUS CONCRETE INSERT ANCHOR

Provides mobile anchor in standard strut material. Stainless steel plates with steel carabiner. Accommodates 1-5/8" (4.1 cm) wide strut material.

## ROOF ANCHORS

We offer a complete array of anchorage devices for sloped wood and flat commercial steel roofs to help you customize the perfect fall protection solution.

### AJ730A PORTABLE REUSABLE ROOF ANCHOR

For use on flat or sloped wood roofs. Installs with 20 ea. 16D nails. Simple hinge style design is extremely easy to transport, install, dismantle and store.

### 2103680 KNOCK DOWN DISPOSABLE ROOF ANCHOR KIT

Simply nail into sheathing and roof member. When job is complete, knock down or shingle over. Kit contains 12 anchors and nails.

### 2103678C PERMANENT RIDGE ROOF ANCHOR

Installs with nails at the roof ridge. Shingle over leaving only the D-ring exposed. Provides fall protection during initial construction as well as for future homeowner.

AJ730A

2103680

2103678C

### 2190001C STANDING SEAM SWIVELING ROOF ANCHOR

Portable and reusable anchor fits seam spacing of 12" to 24" (30 cm-61 cm). Non-penetrating clamp design won't damage the roof. Universal self retracting lifeline (SRL) cradle fits most SRLs and swivels 360° for maximum mobility and protection. (Shown with Rebel™ SRL—must order separately).

### 2190013 METAL/WOOD SWIVELING ROOF ANCHOR

Portable and reusable anchor provides 360° of mobility and protection on sloped or flat wood and metal decking. Universal bracket accommodates most self retracting lifelines. (Shown with Rebel™ SRL—must order separately.)

FALL PROTECTION KITS

# IT'S THIS SIMPLE: IT'S ALL IN THE CAN.

## **COMPLIANCE IN A CAN™**

**A complete fall protection system in one handy container!**

Often imitated, never matched. Protecta® pioneered the creation of a complete fall protection system available in a convenient container. The success of the original “can” spawned the creation of several variations with different anchorage devices. Each kit offers a complete set-up for convenient CSA and OSHA compliance and safety on the job.

# WHAT'S ALL IN THE CAN

## 5-POINT HARNESS FOR VERSATILITY

5-point harnesses meet a wide variety of jobsite requirements.

AJ730A

## ROOF ANCHOR

Lightweight and compact reusable roof anchor provides anchorage and tie-off point.

AC203C-SA2

1204001C

## PRO™ ROPE ADJUSTER WITH SHOCK ABSORBING LANYARD AND ROPE LIFELINE

Compact, lightweight manual adjuster with 2 ft. (0.6 m) shock absorbing lanyard (AC203C-SA2) stays locked in place on the 50 ft. or 25 ft. (15 m or 7.6 m) 5/8" polyester/polypropylene lifeline (1204001 or 1203118).

## PRO™ SHOCK ABSORBING LANYARDS

6 ft. and 4 ft. (1.8 m and 1.2 m) shock absorbing lanyards limit the average fall arresting forces to 900 lbs. (4 kN) for added safety.

1340125C 6 ft. (1.8 m)  
1341006C 4 ft. (1.2 m)

1341001C 6 ft. (1.8 m)  
1341004C 4 ft. (1.2 m)

**LEG LOCKS**

Built into head to ensure legs stay locked in place.

**BUILT-IN ANCHOR POINTS**

Four eyebolts offer secondary anchor points for a fall arrest system.

**PULLEY**

Routes winch/SRL lifeline over opening providing smooth operation.

**MECHANICAL DEVICES**

Can support winches or SRLs for complete flexibility.

**ADJUSTABLE LOCKING LEGS**

Fast and easy detent pin style adjustment allows for precise height setting.

**TELESCOPING LEGS**

Provide fast and easy adjustment.

**FOOT PADS**

Skid resistant treadplate soles on feet.

**SAFETY CHAIN**

Provides added support and strength for demanding confined space applications.

**ALUMINUM CONSTRUCTION**

Extremely lightweight yet durable construction for ease of use and longevity.

# WHEN EVERY SECOND COUNTS, THERE IS NO SECOND BEST.

Lightweight, portable Protecta® aluminum tripods are ideal for confined space manhole entry and retrieval. They're easily transported from one location to another and can be set-up by one worker. Attach one or two mechanical devices and you're ready to go. Built to meet CSA, OSHA and ANSI standards.

## CONFINED SPACE COMPONENTS

### AK105A CONFINED SPACE TRIPOD

- 8 ft. (2.4 m) height
- 5,000 lb. (22 kN) 1-man rated
- Fast and simple installation
- Anodized epoxy coated aluminum

### AK020A1 PULLEY WITH CARABINER

- Routes winch/SRL lifeline
- Anodized aluminum construction
- Pivoting sheave pulley guide
- Includes carabiner

AK020A pulley without carabiner

### 3591008 REBEL™ 3-WAY SELF RETRACTING LIFELINE

- 50 ft. (15 m) galvanized cable
- 310 lb. (140 kg) man rated capacity
- Fast and simple installation
- Fall arrest device with built-in emergency retrieval winch
- Models available with mounting brackets (or separately)
